Directions: Write 12 spelling words on the game board (one word per space). To play, you need a partner and you need to sit directly across from one another, hiding your game boards behind your folder. Player 1 begins by asking a question such as, "Do you have a word in B4?" If no, they say "miss" and player 1's turn is over. If yes, they respond "hit" or yes, the word is "frighten." If player 1 can spell the word correctly, he earns a point. The first player to score eight points is the winner. Keep track of points on a scrap piece of paper.
